

BIG GREEN BUILDINGS

A Workshop for SW Colorado Planners, Builders and Inspectors April 22-23, 2004

PURPOSE

Federal, State, and local governments are rapidly adopting green building guidelines for civic, commercial, and residential structures. This workshop explores trends across the nation and how SW Colorado stakeholders at all levels can prepare and respond to meet new demands for high performance design and construction. The workshop is open to public officials, planners, designers, builders, inspectors, suppliers, and other building professionals.
